

War Crimes

On crime: What efforts did US make to get an international determination that NVN was waging war ... "aggressing"?

There was no time urgency.
(Hines, Congress, & UN could have been consulted).

Why did we not do as in Korea? any?
(Would we not have gone to UN if SU had been sitting in UN?
What if SU had vetoed? Or UN had rejected proposal?)

Or, before OAS in Cuba II?

Have we even submitted case to SEATO Conference? ! ! ! !

(Now: Vigilante Band "justice," with US as the world's posse.)
Rever: Oxbow Incident

- Why did no other nation bring VN before the UN?

(effective US veto?)

- Proper debate on

War as an instrument of policy.

- [How about a specific look at
bombing ^(+ artillery?) : e.g. in support of another
country, or vs. a rebellion

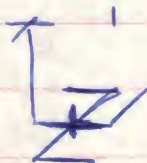

- When was this - arguing - US committed of
ground troops in VN?

Or bombing?

Wier: - NAK, etc. actually kill people

(us. bring ; ...
or better)

(us. "conspiracy")

Dear Mr. Wicker,

We have a lot to talk about; as our friends Neal Sheehan and Harrison Salisbury can tell you. (We did, in fact, meet once, in the spring of 1968, in your office in Washington; somewhat more came from that meeting than you may have been aware. In fact, it would be worth discussing that incident in the present context, if we have a chance to talk, as I hope).

B

March 1968: civil disobedience of leaders. Effects/.

Minn 8 trial:~~xxxxx~~ draft resistance prospects as of March 68 (Goulding). Evils then to be combatted.

Kehler, Niemoller and me.

Minn 8: provide trial.

"Vile": would the word be used about any of above? Should it really be used for this alleged plot?

Should it not be used for what HAK has done? (Consider the reasons we get).

Quantitative morality: of course. Hitler/Jews. Disproportion of what we are doing. Wicker argument, ignore proportions: yet note Admin moral rationale: we are acting to prevent a greater evil, the killing of other VNese by VNese (would that work even if proportions were reversed?)
